New Pensions Legislation which does not affect you

Dear Mr Sample,

I am pleased to inform you that as a contributing member of the AA Pension Scheme, which is a qualifying scheme, you need take no action as a result of pensions auto-enrolment legislation – you are not affected.

We are writing to you because Companies are required by law to inform employees that if their membership of an existing pension scheme ends whilst they are still employed by the Company then (unless it was their choice to leave the scheme) these employees must be immediately auto-enrolled by the Company into an alternative scheme that is legislatively compliant.

We will shortly be enrolling all employees, who are not already active members of the AA Pension Scheme, into the Acromas Group Personal Pension Plan (AGPPP). The AGPPP is the workplace pension scheme chosen by the Company for its compliance with the Automatic Enrolment legislation that came into effect on 1st October 2012.

For further information on pensions and savings for later life please visit www.gov.uk/workplace-pensions. If you have any other queries regarding auto-enrolment, please contact the Pensions Team on 0800 587 7877 Opt 2.

Yours sincerely

A handwritten signature in black ink, appearing to read 'Adrian Furnell', written in a cursive style.
